

GDOT announces the creation of sixteen new Twitter feeds for traffic alerts. Each of the new feeds is targeted to a specific highway or region, so now you can follow just the accounts that interest you! Below is a list of the new Twitter accounts, as well as links to them. If you're not currently on Twitter, sign up today! Please note, only the really serious incidents will be Tweeted so you won't be overwhelmed with alerts for every minor fender-bender or stall.

Area	Link
I-75 in metro Atlanta	https://twitter.com/GDOT_I75_ATL
I-85 in metro Atlanta	https://twitter.com/GDOT_I85_ATL
I-285 in metro Atlanta	https://twitter.com/GDOT_I285_ATL
